

# Prepared to Deliver

**Pratt & Whitney**

A United Technologies Company

**BY 2020, PRATT & WHITNEY WILL MORE THAN DOUBLE THE NUMBER OF ENGINES IT MAKES EACH YEAR BY INVESTING IN ITS GLOBAL NETWORK OF PARTNERS AND SUPPLIERS**

Pratt & Whitney has **nearly 800 product suppliers** in dozens of countries and continues to invest in its manufacturing and supplier network. This strategy allows the company to limit single points of failure.

**800**  
PRODUCT  
SUPPLIERS

Pratt & Whitney has awarded **more than \$23 billion** in long-term agreements to product suppliers, enabling them to invest in capital equipment and hire people. The company has also pressure tested its suppliers to ensure they are ready to produce during the peak of the ramp.

**>\$23**  
BILLION IN LONG-TERM  
AGREEMENTS

To put its employees closer to the supply base, Pratt & Whitney has established **seven regional offices** around the world. The offices bring together experts from manufacturing engineering, quality and procurement to drive issue resolution and provide training.

**7**  
REGIONAL OFFICES

Pratt & Whitney's Operations Command Centers, based in East Hartford, Connecticut and Longueuil, Canada, **proactively track** the status of all parts across the company's supply chain and operations to drive improvement and on-time delivery.
