

Pratt & Whitney

North Berwick Repair Operations

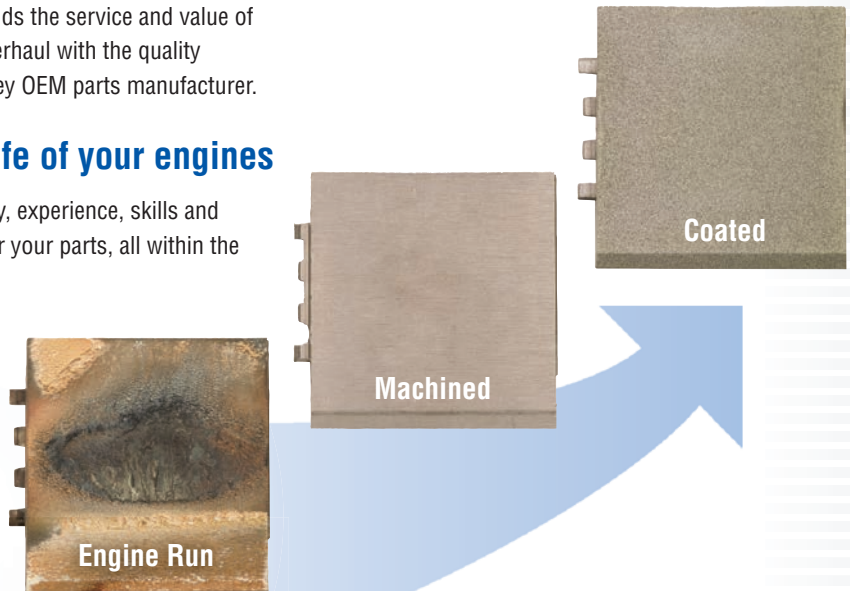

Delivering customer satisfaction with OEM (original equipment manufacturer) capability and MRO (maintenance, repair and overhaul) flexibility

North Berwick Repair Operations blends the service and value of Pratt & Whitney maintenance, repair and overhaul with the quality you've come to expect from a Pratt & Whitney OEM parts manufacturer.

OEMRO® capability for the life of your engines

North Berwick Parts Center has the capability, experience, skills and equipment to design, manufacture and repair your parts, all within the same facility.

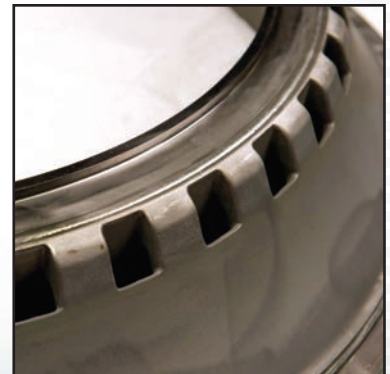

Pratt & Whitney. It's in our power.™

Tangential On Board Injection (TOBI) duct out of engine

TOBI duct flange removed

New TOBI duct flange installed (holes omitted)

North Berwick Repair Operations
