## COMPONENT SOLUTIONS

# CONFIDENCE

## IN WHERE YOUR PARTS ARE COMING FROM

You know used parts can save you money, but you can't put a price on confidence. Fortunately, our Component Solutions services don't ask you to. We specialize in the exchange and sale of used serviceable components and managing on-site inventory programs. We can support your AOG requirements 24/7 either directly, through our Parts Distribution Centres, or through the P&WC Customer First Centre. And we ensure the traceability of every component we sell. So you know where it's coming from.

### CERTIFIED QUALITY

- All components are traceable and certified
- Only top quality JAA/FAA/OEM approved repair sources are used
- You are assured of reliability and durability
- An industry leading warranty

### VALUE-ADDED SOLUTIONS

- Ability to supply immediate exchange and outright sale on all P&WC components and accessories
- Option to consign components on-site
- Ability to design a support program to meet your specific needs
- Ensuring your hardware availability, minimizing your cash outlay, and providing competitive exchange pricing
- Kitting of consumables for engine build or on-wing repair

### BROAD SERVICES AND CAPABILITIES

- Rotable exchange support and serviceable part sales for all types of P&WC engine series
- New part sales
- Provider of inventory solutions including consignment of rotatable inventory
- Purchase of used engines
- Active buyers of surplus inventories
