CUSTOMER TRAINING SERVICES

MORE THAN JUST A MANUAL

WE PROVIDE A SCHOOL

As a Pratt & Whitney Canada customer, you get more than just an engine maintenance manual. You're entitled to tuition-free training from the manufacturer; no one else in the industry offers it. And the advantages go beyond ensuring that your maintenance technicians have the understanding required for safer, efficient operation.

DO MORE

Our training programs enable you to do more of your maintenance in-house, increasing your control and autonomy. They allow you to create resident experts, who return to your facility, ready to share their knowledge with their colleagues. And because better decision-making and troubleshooting skills come with greater expertise, you'll find that maintenance issues are identified and resolved rapidly – keeping your engines in service.

CONVENIENT TRAINING SITES TO CHOOSE FROM – INCLUDING YOURS

Pratt & Whitney Canada Customer Training facilities are located around the globe. Choose the training center nearest you to reduce time away and travel expenses for your technicians. Or ask us for on-site training at your facility or at one of our regional centres.

OEM KNOW-HOW

As the people who designed and built your engine, we know it best. And we've been training our customer technicians since 1968, giving us unrivaled expertise. Add up the advantages, and you'll choose P&WC for your technician training needs.

- The industry's only free factory training courses
- Close to 60,000 students successfully trained
- Tuition-free, and available at our training facilities worldwide
- Complete range of courses, instructor led, audio/visual and computer assisted
