# RENTALS, EXCHANGE & SALES SERVICES

# WHEN YOU NEED IT

---

## PEACE OF MIND ALL THE TIME

---

We keep the industry's largest pool of P&WC rental and exchange engines on hand, deployed strategically throughout our global network. So when you need an engine, we're ready to respond efficiently, to get you back in the air quickly.

### UNIQUE SUPPORT PACKAGES

The size of our rental pool, coupled with our ability to purchase engine assets to support our customers, means that we can create unique support packages for you. And it means that you don't have to carry as many spares, decreasing your required assets for a better bottom line.

### MORE WAYS TO BENEFIT

There are a number of other ways our engine pool can be of benefit to you. We offer a wide range of services to satisfy your requirements:

- Engine rentals covering all P&WC engine series
- Engine exchanges where your core is exchanged for an engine from our rental pool with adjustments made for time and cycle differences between the core and the exchange engine
- New and used engine sales
- Fleet Enhancement Program (FEP), which offers a new engine in exchange for a core engine of the same model at an attractive price and providing all the associated benefits of a new engine
- Converter Enhancement Program, which is a re-engining program that offers a new, more powerful engine in exchange for your core engine via an aircraft supplemental type certificate

Exchange engines are OEM maintained and some are zero timed. Exchange and FEP engines are frequently available off-the-shelf for most engine models. Rental engine service is available 24 hours a day to assure full support for all urgent requirements.
